SUMMARY

Senior Full-Stack & AI Engineer with 20+ years of experience designing scalable, high-performance web applications and cloud architectures. A language-agnostic engineer who heavily leverages advanced Prompt Engineering, AI-assisted development (GitHub Copilot, Cursor, Claude Code), and modern cloud solutions (AWS) to drive engineering efficiency. Expert in modular architectures, microservices, and modern e-commerce ecosystems across PHP, Node.js, and React.

TECHNICAL SKILLS

- **AI & Methodologies:** Prompt Engineering, AI-assisted Workflow, Clean Code, S.O.L.I.D., Agile/Scrum
- **Architecture & Backend:** Microservices, Event-Driven Design, PHP 8.x (Symfony), Node.js, TypeScript, C#, Python
- **Cloud & Infra:** AWS (Lambda, SQS, SNS, S3, DynamoDB), Serverless, Docker, REST APIs, GraphQL, Linux Shell
- **Frontend & E-commerce:** React, Vite, Tailwind, Storybook, Pimcore, Akeneo, Shopify, Next.js

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer | valantic DXA

03/2026 - Present | Munich, Germany

- Designing enterprise e-commerce, PIM, and CMS solutions (Pimcore) using PHP (Symfony), Node.js, TypeScript, and React (Storybook).
- **Tech Stack:** PHP 8, Symfony, React, Storybook, DDev, AI Engineering

Independent Developer & Open Source Creator | Self-Employed

01/2026 - Present | Aystetten, Germany

- Leveraging advanced Prompt Engineering and AI-assisted workflows to rapidly build cross-stack solutions, game development prototypes (C#, Unity), and media pipelines.
- **Tech Stack:** PHP 8, Symfony, React, C#, Python, Unity, AI Tools

Senior Backend / Cloud Engineer | The Quality Group

01/2023 - 01/2026 | Hamburg, Germany (Remote)

- Designed and implemented AWS Lambda microservices, enabling scalable integrations between internal systems and third-party apps.
- **Tech Stack:** PHP, AWS Lambda, Serverless, Microservices, REST APIs

Full-Stack Engineer | Westwing Home & Living

01/2014 - 12/2022 | Munich, Germany (Hybrid)

- Maintained and scaled core backend systems of a high-traffic e-commerce platform using Zend Framework.
- **Tech Stack:** PHP, Zend Framework, Yii Framework, RabbitMQ, AWS SNS/SQS, MySQL, DynamoDB, Redis, React

Software Engineer (earlier roles: Docler Holding & Carnation)

04/2005 - 12/2013 | Budapest, Hungary

- **Tech Stack:** PHP, Zend Framework, MySQL, MSSQL, Cassandra, JavaScript, Websocket

OPEN SOURCE & HIGHLIGHTED PROJECTS

Snowrunner Tuning Shop | 08/2026

github.com/Gixx/snowrunner-tuning-shop | gixx.github.io/snowrunner-tuning-shop/

- Developed a specialized desktop application utilizing advanced Prompt Engineering and AI-assisted development workflows.
- **Tech Stack:** C#, WPF/.NET, AI Engineering

WebHemi (Dual-Engine CMS Ecosystem) | 04/2026 - Present

github.com/Gixx/WebHemi

- Educational, production-minded dual-engine CMS keeping one design system as the visual source of truth, rendered by a PHP-first and a JavaScript-first backend path.
- **Tech Stack:** PHP, Symfony, Storybook, TypeScript, React, Tailwind, AI Tools, Automated testing

EDUCATION & CERTIFICATIONS

- Pimcore Academy (2026)
- SymfonyCasts Continuous Training (2026)
- Zend Certified Engineer (2004)
- Bachelor's Degree, Computer Programming | University of Debrecen

LANGUAGES

Hungarian (Native) | English (Proficient) | German (Intermediate)
